Please direct your medication questions to
 your transplant coordinator or transplant pharmacist.

1. If you are having your blood drawn today, which medications should you hold until after your blood draw?

2. What do you do if you can not take your medications?

3. What system are you going to use to remind yourself to take your medications?

4. What fruits and fruit juices should I avoid?

5. If I have pain and need to take an OTC medication, which one is safe for me to take?

Please direct your medication questions to
your transplant coordinator or transplant pharmacist.
