Administrative  
Coordinator  
Ph 617-667-9501  
Fax 617-667-2092

To Program Affiliates:

I am attaching our updated forms for rotating residents and fellows. These forms are required each year for all rotating residents and fellows – including those enrolled in affiliated programs, the combined Harvard programs or those doing electives from outside institutions.

Please fill in the entire form, and include up-to-date documents. This information must be received 30 days in advance of the start of the rotation. The GME office will not allow residents or fellows to start clinical rotations if information is not complete.

The safety and well-being of our patients and employees is a priority at BIDMC and we require PPD testing annually for all our clinical staff. Any resident or fellow arriving without evidence of health clearance (including a PPD test result within 12 months) will be given the option of PPD testing at BIDMC employee health or returning to their home institution to arrange for testing.

The Beth Israel Deaconess Medical Center recognizes that rotating residents and fellows add substantial value to our educational and clinical programs and we welcome your participation.

Thank you for your cooperation. If you have any questions please contact Susan Herlihy, our GME manager.

Sincerely,

Sheila Barnett, M.D.  
Director of Graduate Medical Education
