Our Team

The Division of General Surgery team comprises highly experienced, board-certified general surgeons, all of whom hold appointments at Harvard Medical School.

Mark P. Callery, MD, FACS

CHIEF, GENERAL SURGERY

Dr. Callery completed his General Surgery residency and a research fellowship at Barnes Hospital/Washington University School of Medicine in St. Louis, and a fellowship in Hepato-Pancreato-Biliary Surgery at the Royal Infirmary of Edinburgh, Scotland. His major clinical interests are pancreatic, gallbladder/biliary, and hernia surgery.

Christopher G. Boyd, MD, FACS

CHIEF OF SURGERY, BID-NEEDHAM

Dr. Boyd completed his residency in General Surgery at BIDMC. His major clinical interests are laparoscopic and open abdominal surgery and complex hernias.

Morgan A. Bresnick, MD

Dr. Bresnick completed her residency in General Surgery at Boston Medical Center, and a fellowship in Bariatric and Minimally Invasive Surgery at Thomas Jefferson University Hospital in Philadelphia. Her major clinical interests are minimally invasive and bariatric surgery, hernia surgery, and gastrointestinal disorders surgery.

Jonathan F. Critchlow, MD, FACS

ASSOCIATE CHIEF, GENERAL SURGERY

Dr. Critchlow completed his residency in General Surgery at BIDMC. He is board certified in both Surgery and Surgical Critical Care. His major clinical interests are minimally invasive, esophageal and stomach surgery, and colon surgery.

Daniel B. Jones, MD, FACS

VICE CHAIR, TECHNOLOGY AND INNOVATION

Dr. Jones is Chief of Minimally Invasive Surgery and Director of the Bariatric Surgery Program. He completed his residency in General Surgery and a fellowship in Minimally Invasive Surgery at Barnes Hospital/Washington University School of Medicine in St. Louis. His major clinical interests are gastrointestinal, bariatric, and hernia surgery.

Tara S. Kent, MD, FACS

VICE CHAIR, EDUCATION

Dr. Kent completed her residency in General Surgery at Albert Einstein College of Medicine Montefiore Medical Center, and a research fellowship in Surgical Oncology at Albert Einstein College of Medicine. Her major clinical interests are pancreatic, biliary, and gastrointestinal disorders surgery.

Alia Qureshi, MD, FACS

Dr. Qureshi completed her residency in General Surgery at the University of Toronto, and a fellowship in Minimally Invasive and Foregut Surgery at Swedish Medical Center in Seattle, Washington. Her clinical interests include minimally invasive surgery, endoscopy, and foregut surgery, including anti-reflux and gastric surgery.

Benjamin E. Schneider, MD, FACS

Dr. Schneider completed his General Surgery residency at the University of Iowa Hospitals and Clinics in Iowa City, Iowa, and a fellowship in Advanced Laparoscopy at BIDMC. His major clinical interests are bariatric and metabolic, robotic, and advanced minimally invasive surgery.

at Beth Israel Deaconess Medical Center

*Comprehensive,
Leading-Edge,
Rapid-Access Care*

General Surgery at Beth Israel Deaconess Medical Center

The Division of General Surgery at Beth Israel Deaconess Medical Center provides expert evaluation and treatment, including the latest minimally invasive approaches, for all general surgery patients.

We provide rapid access to the entire breadth of general surgical services, from simple inguinal hernia treatment to complex pancreatic resections and bariatric surgery.

For the convenience of referring physicians and patients, we provide our services at a large and growing number of locations throughout the Greater Boston area at convenient hours.

We value your referrals — whether for routine or specialized care — and look forward to collaborating with you to provide your patients with rapid access to the best possible care.

— *Mark P. Callery, MD, FACS*
Chief of General Surgery

Leading-Edge Treatments by Top Surgeons

We are at the forefront of offering the latest minimally invasive treatments. For example, we offer robotic-assisted surgery for a growing list of conditions and an innovative new laparoscopic treatment for GERD (LINX®), to cite just a few. Your patients will receive care from a talented, experienced team of surgeons, several of whom are recognized regionally and nationally as “Top Doctors.”

Conditions We Treat

We welcome referrals of patients with known or suspected:

- abscesses
- appendicitis
- bowel obstruction
- cysts, benign masses, lipomas
- gallbladder issues
- gallstones
- gastrointestinal cancer
- gastrointestinal reflux disease (GERD)
- gastrointestinal stromal tumor (GIST)
- hernias
- obesity
- pancreatic cancer
- pancreatitis
- sigmoid diverticulitis
- something unusual? Call us!

Multidisciplinary Services

As members of a large, well-respected Department of Surgery in a major academic medical center, we are able to provide patients with rapid, seamless access to any of the specialists, services, and technologies needed to achieve the best possible outcomes. This ensures that patients receive the highest-quality care in a coordinated, efficient manner.

Quick, Easy Access: Just call 617-667-3787

We make it quick and easy for you to make a referral to any of our locations:

Convenient Locations and Hours

We provide services in many community locations, making it more convenient for your patients to receive care closer to home. Surgical procedures are performed at our main campus in Boston and, as appropriate, our hospitals in Milton, Needham, and Plymouth (coming in 2016). Rapid access to our services across locations is quick and easy. Just make one call to our General Surgery line at: 617-667-3787.

Our Growing List of Locations

- Chelsea
- Chestnut Hill
- Lexington
- Milton
- Needham
- Plymouth (coming in 2016)
- Wellesley (Atrius)

One phone call does it all! Simply call our appointment number (617-667-3787) to speak with a member of our staff, who will promptly arrange an appointment for your patient with the appropriate surgeon and, if you wish, put you directly in touch with one of the members of our team.

Prompt, Regular Communication

We communicate with you about your patients’ treatment plans and progress, and respond to your queries promptly. We appreciate your referrals and work with you and your staff to return patients to your care as quickly as possible.
