

BIDMC Parkinson's Disease and Movement Disorders Center

You're Invited to Learn about Deep Brain Stimulation!

There are many practical questions to discuss during life after DBS surgery, along with strategies and tips to help people living with DBS practice regular activities. The goal of this DBS Educational Webinar will be to answer Frequently Asked Questions about DBS. We will have representatives from three DBS manufacturers (Abbott, Boston Scientific, and Medtronic) present in order to provide their insight into strategies about how to ease the transition post-surgery and answer any questions.

We are offering this educational opportunity to all individuals that have recently undergone DBS surgery in order to address frequently asked questions about the device.

Thursday September 8

1:30 - 2:30 p.m.

Beth Israel Deaconess Medical Center, East Campus
330 Brookline Avenue, Boston, MA 02215

This event will take place virtually on Zoom.
