### Housing First
- **Immediate Effect**: Provision of housing and appropriate services to the chronically homeless.
- **Intermediate Effect**: Increased placement in permanent housing.
- **Funding Outcomes**: Reduced homelessness among individuals who receive services.
- **Long-Term Effects**: Reduced chronic homelessness.

### Supportive Services for People Experiencing Homelessness
- **Immediate Effect**: Homeless individuals engaged in trauma-informed services.
- **Intermediate Effect**: Increased access to homelessness services.
- **Funding Outcomes**: Policy passed and implemented at city- and/or state-level.
- **Long-Term Effects**: Reduced recidivism for formally incarcerated individuals.

### Drive Public Policies to Prevent or Reduce Homelessness
- **Immediate Effect**: Financial support provided to coalitions driving city- and statewide policies that prevent homelessness.
- **Intermediate Effect**: Increased ability to afford housing.
- **Funding Outcomes**: Residents kept out of housing court and in their homes.
- **Long-Term Effects**: Reduced episodic homelessness.

### Flexible Funding
- **Immediate Effect**: The administration of funds to assist in maintaining housing stability and/or attain stable housing.
- **Intermediate Effect**: Increased access to homelessness services.
- **Funding Outcomes**: Reduced displacement among individuals who receive funds and/or services.
- **Long-Term Effects**: Reduced episodic homelessness.

### Eviction Prevention
- **Immediate Effect**: Increased access to legal services and eviction prevention programs.
- **Intermediate Effect**: Residents kept out of housing court and in their homes.
- **Funding Outcomes**: Increased home ownership by low-income individuals and families.
- **Long-Term Effects**: Reduced episodic homelessness.

### Down Payment Assistance & Home Ownership Education
- **Immediate Effect**: Down payment assistance and home ownership education provided for low-income, first-time home buyers.
- **Intermediate Effect**: Increased access to credit and/or funds to afford housing.
- **Funding Outcomes**: Residents kept out of foreclosure and in their homes.
- **Long-Term Effects**: Reduced episodic homelessness.

### Zero and/or Low-Interest Home Loans
- **Immediate Effect**: Financial support provided for organizations assisting low-income home buyers and nonprofit housing developers.
- **Intermediate Effect**: Residents kept out of foreclosure and in their homes.
- **Funding Outcomes**: Increased home ownership by low-income individuals and families.
- **Long-Term Effects**: Reduced episodic homelessness.

### Foreclosure Prevention
- **Immediate Effect**: Assistance provided to low-income homeowners (e.g., foreclosure prevention counseling, financial support).
- **Intermediate Effect**: Residents kept out of foreclosure and in their homes.
- **Funding Outcomes**: Increased home ownership by low-income individuals and families.
- **Long-Term Effects**: Reduced episodic homelessness.

---

ASSUMPTION: The evidence-based strategies listed above are intended to be structured to direct funding to the CHI neighborhoods (Allston/Brighton, Bowdoin/Geneva, Chelsea, Chinatown, Fenway/Kenmore, Mission Hill and Roxbury) and target populations. Examples provided are not meant to be exhaustive representation of the target populations.
<table>
<thead>
<tr>
<th>Evidence-Based Strategy</th>
<th>Immediate Effect</th>
<th>Intermediate Effect</th>
<th>Funding Outcomes</th>
</tr>
</thead>
<tbody>
<tr>
<td>Medication Assisted Treatment (MAT) provider training</td>
<td>Increase in providers trained and certified to administer MAT.</td>
<td>Increased providers administering MAT.</td>
<td>Improved mental health and substance use outcomes.</td>
</tr>
<tr>
<td>Telehealth</td>
<td>Increased capacity to deliver telehealth services (e.g., individuals trained to deliver telehealth services, offices equipped with telehealth infrastructure, etc.)</td>
<td>Increased use of telehealth to deliver behavioral health services.</td>
<td></td>
</tr>
<tr>
<td>Primary Care Integration</td>
<td>Develop infrastructure for care integration and train providers in integrated care model.</td>
<td>Increased behavioral health screenings and referrals by primary care providers.</td>
<td></td>
</tr>
<tr>
<td>Community Health Workers (CHWs)</td>
<td>Increase in CHW's trained on behavioral health and behavioral health care services in the community.</td>
<td>Increased CHW's connecting individuals to care and resources.</td>
<td></td>
</tr>
<tr>
<td>School-based Mental Health Services</td>
<td>Expand behavioral health resources available to schools (e.g., training, hiring staff, etc.).</td>
<td>Increased delivery of behavioral health services in schools.</td>
<td></td>
</tr>
<tr>
<td>Mental Health First Aid</td>
<td>Increase in individuals trained in Mental Health First Aid.</td>
<td>Increased knowledge of Mental Health First Aid and recognition of mental illness among community members</td>
<td></td>
</tr>

Examples provided are not meant to be exhaustive representation of the target populations.
**Increased job readiness skills.**

- Programs to support acquisition of job-specific and soft skills/job readiness skills.

**Increased skills needed for jobs in specific (high need) sectors.**

- Education and job training based on needs of regional employers within specific industry sectors.

**Increased job opportunities and/or new jobs created.**

- Career guidance and navigation support to individuals who would like to or need to switch careers.

**Increased access to stable income.**

- Short-term or long-term jobs for youth (14–24 years).

**Increased access to career guidance and navigation support.**

- Subsidized, paid jobs for those who may have difficulty finding them, (e.g., individuals impacted by incarceration.)

**Decreased violent crime among employed youth.**

- Low-interest loans or small grants to minority and women-owned small businesses.

**Increased access to capital for minorities and women.**

- Resources and support aimed at increasing economic security and wealth accumulation (e.g., financial coaching, savings vehicles).

**Increased financial literacy (e.g., budgeting skills, savings strategies, etc.)**

- Increased financial security (e.g., ability to meet basic needs, creating a budget, savings).

**Reduced wealth gap.**

**Long-Term Effects**

- Increased families earning a livable wage.

**Increased ability to afford unanticipated expenses (e.g., emergency medical bills, layoffs, etc.).**

**Immediate Effect**

- Increased job readiness skills.

**Intermediate Effect**

- Increased skills needed for jobs in specific (high need) sectors.

**Funding Outcomes**

- Increased employment and earnings.
Increased community cohesion. Goal of neighborhood investment achieved.

Increased social capital. Improvement in funded priority area.

Residents engaged in grassroots processes to determine: (a) neighborhood priorities for funding and (b) evidence-informed or evidence-based strategies.

Collaborative partnerships formed.

Goal of neighborhood investment achieved.
