

Researchers at Beth Israel Deaconess Medical Center are conducting a research study to learn about celiac disease.

This study may be a good fit for you if...

- You have been diagnosed with celiac disease
- You are between 18 and 70 years old
- You are following a gluten-free diet for at least 12 months

If you decide to take part in the research study, you would...

- Undergo a 13-day gluten challenge
 - Have blood draws, genetic testing for celiac disease and 1 upper endoscopy with duodenal biopsies
 - It will involve 5 outpatient visits to BIDMC, ~2 months participation from the first to the last study visit
-

About the research study

1. The research will take place at the **Clinical Research Center** at Beth Israel Deaconess Medical Center.
2. All study procedures will be covered by our study fund and of **no cost** to you.
3. To compensate for time and travel, participants will receive **\$1,250** in addition to travel and parking reimbursement.
4. The Principal Investigator is **Dr. Ciaran Kelly**.

For more information

To take part in this celiac research study or for more information, please contact Rebecca Sprague, Celiac Center, at rsprague@bidmc.harvard.edu or call **617-667-3419**.
